MERLOT

Merlot is an exceptional wine of high quality. It creates an unforgettable and charming taste experience. It's full, really harmonious, fruity with full body and extract and higher alcohol levels. It has a medium-intensity ruby colour with a purple tint along the edge. The aroma is extractive, full. Merlot's typical aroma is formed by fruit, especially blackcurrant, plum, sweet cherry and vanilla.

The aroma also smells like forest and dried fruits. The taste is full, pure and complex, especially with flavour of fresh grapes and berries. You can feel a slight touch of chocolate in its aftertaste. Merlot has relatively few acids and tannins, which gives it a smooth velvety taste. Therefore, French vintners use it in combination with stronger, rougher varieties like Cabernet Sauvignon, Cabernet Franc, Pinot Noir or Syrah. It balances them and creates harmonious, full bodied Bordeaux, which are of high value on the world markets. Young wines tend to be less varietal and typical. Longer maturing makes the wine turn violet and last for decades in bottles. Recommended temperature is 17-19 °C. If a gourmet wants to enjoy a velvety smooth red wine and reaches for the bottle of Merlot, he won't be disappointed.
