

Vinea fertitis

CHARDONNAY

Chardonnay is a high quality dry white wine. It has a pale greenish colour with sparkly green-yellow tint. It has a stronger fruity aroma. Delicate honey aroma resembles flowers of acacia. In the aroma you can smell citrus fruit, banana, honey, nuts and apples. It often has tones of pineapple and mango. Pleasant acids and lime-like tones are underlined by floral-fruity tones. The taste is more spicy, full and extractive. This wine will also surprise you with delicate vanilla taste and caramel aftertaste.

In Slovakia it often achieves a light bouquet.

It's also fuller, more extractive wine, with extraordinary quality and long persistence of aroma and taste. Due to higher tannin content is also suitable for storage in barrique barrels. The presence of a „barrier“ is what makes this wine interesting. Wine will gain fuller, more passionate character.

The wine gains a different dimension.

Now it becomes a real delicacy. Chardonnay embodies wine of excellent quality, suitable for storage and is one of the most famous wines in the Western Hemisphere. Recommended temperature is 10–12 °C.
