

Vinea fertitis

CABERNET SAUVIGNON

Cabernet Sauvignon is noble representative of red wines. It has high content of anthocyanin and tannins. It has a distinct varietal flavour of cabernet character and higher content of acids. Wine has its nobleness and charm. It's extremely spicy, typical, with a distinct varietal characteristic.

The colour of the wine is attractive ruby red.

In its intensive fruity-floral fragrance you can discover the smell of cherries, plums, blackcurrants, violets and delicate anise tone. Its taste is dominant by soft tannins, freshly ground black pepper and an adequate chocolate-herbal aftertaste. Its features

are veiled by characteristic wood scent.

Aging increases spiciness and colour saturation.

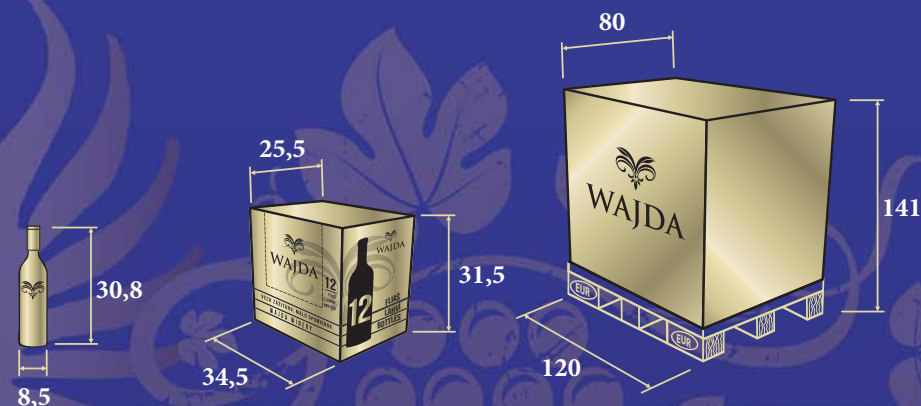

Recommended temperature is 16–18 °C.
